Applied for Business

Informed Training

Consultation means training that is delivered to meet your company's unique requirements. ATS can deliver a mix of face-to-face, online, blended and practical applications to fit in with how your business works.

Assessing your specific needs, we can arrange training suitable to your operations. Through collaboration, we can also create bespoke training with our in-house writers and developers.

Applied for Work

Industry Expertise

Compliance assurance is important in ensuring that your employees are qualified to apply regulatory requirements and industry best practices.

Our instructors are industry professionals with current, real-world experience in Transport & Logistics Training.

Applied for Skills

Real Results

Training incorporates National Heavy Vehicle guidelines and industry best practices. Your training outcomes should be realistic and measurable.

We don't stop there. ATS defines what must be achieved and monitors how well these outcomes have been delivered.

Applied Approach

Program Features

- Blended learning, assessment activities in the workplace, supported by relevant stakeholders
- A delivery model based on project/event management principles to keep student progression on track.
- Multiple exit and entry points to support a flexible format of delivery for student and employer.

Student Benefits

- Learning milestones are clear, flexible, and highly organised to support the student experience
- Assessment deliverables are built throughout the program to support confidence and commitment levels of each candidate.
- Students, employers and relevant stakeholders are provided with an annual calendar to organise attendance and workplace support for each program activity.

About the Qualification

This is a qualification for those engaged in supply chain operations and includes specialisations for logistics and warehousing operations.

It involves a defined range of skilled operations, usually within a range of broader related activities involving known routines, methods and procedures, where some discretion and judgment is required in selecting equipment, services or contingency measures within known time constraints. It may also include responsibility for coordinating the work of others.

Program Evaluation

ATS refer to the Kirkpatrick Model when evaluating its programs.

It consists of four levels of evaluation: Reaction, Learning, Behaviour, Result. Each successive level of the model represents a more precise measure of the effectiveness of the training program

Nationally Recognised

Nationally Recognised Training means the course is a program of study leading to accredited vocational qualifications and credentials that are recognised across Australia.
